SCOPE OF SERVICES for preparation of FORECASTS AND NOISE EXPOSURE CONTOURS for REDLANDS MUNICIPAL AIRPORT

This scope of services includes work necessary to support preparation of CEQA documentation and update portions of the Airport Land Use Compatibility Plan (ALUCP) for Redlands Municipal Airport. As outlined in California Public Utility Code §21675(a), the ALUCP is based on three planning assumptions for each airport:

- the updated Airport Layout Plan or Drawing (not included as part of this scope of services);
- the updated aviation activity forecasts; and
- the updated noise exposure forecasts.

Based on the deficiencies of the Diversified Pacific Initial Study and our review of the existing airport land use compatibility plan for Redlands Municipal Airport, the following analysis is needed:

- 20-year operational forecasts for Redlands Municipal Airport; and
- Updated existing condition and 20-year noise exposure contours for Redlands Municipal Airport.

Task 1 – Operational Forecasts

An existing operations estimate for Redlands Municipal Airport has been established in the November 10, 2015 Land Use Compatibility Plan Review report prepared by Coffman Associates, Inc. Using this information as a baseline, available socioeconomic data, FAA forecasts, and based aircraft fleet mix, a 20-year market share forecast of operations for Redlands Municipal Airport will be prepared. The City of Redlands will provide the most recent list of based aircraft for the airport.

Task 2 – Noise Contours

Using the available operational fleet mix for Redlands Municipal Airport and the Operational Forecasts prepared under Task 1 above, existing condition 20-year noise exposure contours will be prepared for Redlands Municipal Airport. Contours will be calculated using FAA's Airport Environmental Design Tool. Exhibits will be prepared depicting the noise exposure contours overlain on available aerial imagery. The exhibits will be suitable for use in the Diversified Pacific Initial Study and ALUCP document.

Exhibit B

SCHEDULE for preparation of FORECASTS AND NOISE EXPOSURE CONTOURS for REDLANDS MUNICIPAL AIRPORT

From the notice to proceed, we anticipate the preparation of aviation forecasts and noise exposure contours for Redlands Municipal Airport to take less than two (2) weeks. If the notice to proceed occurs close to or during the upcoming holiday season, the schedule may need to be extended.
