

**Cost Distribution Agreement for Traffic Signals and Lighting
Permit Number 08-08-N-SN-0597**

**Project Location: Route 10 at 6th Street, Eastbound and Westbound
Ramps, in City of Redlands**

City of Redlands will install traffic signals and safety lighting on Route 10 at 6th Street. City and State agree to cost distribution stated below.

Maintenance and Electrical Energy Costs

Commencing upon construction and continuing until determined otherwise by mutual agreement, City of Redlands agrees to pay Caltrans for City's proportionate share of the ongoing monthly maintenance and electrical energy costs for the traffic signals and safety lighting at the ramps.

City's share is 50% of maintenance and electrical energy costs. Caltrans will pay 50% of maintenance and electrical energy costs.

Caltrans will own, maintain and operate the traffic signal and lighting system and pay 100% of the operating costs.

Maintenance, Repair and Replacement of Emergency Vehicle Preemption System

If installed, all costs for the maintenance, repair and replacement of Emergency Vehicle Preemption Systems are the responsibility of City of Redlands.

When necessary for repair or replacement, Caltrans will test, remove and reinstall Preemption Systems upon notification by City.

Maintenance and Materials for Internally Illuminated Street Name Signs

If installed, City of Redlands agrees to purchase all materials for installation and ongoing maintenance of the internally illuminated street name signs, including signs, sign panels and all hardware.

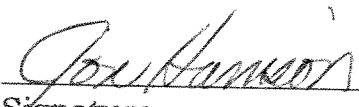

Caltrans agrees to maintain the internally illuminated street name signs. Caltrans will notify City of Redlands when materials are required for repair and maintenance of the signs.

At any time City of Redlands wishes to terminate this agreement, the signs will be replaced with signs of reflective sheeting.
