

Grantor: City of Redlands

Project: East Branch Extension, Phase I
Improvements Project
Parcel No.: SGP-71, Units A, B, C, D, E, and F

RIGHT OF WAY CONTRACT

Document No. SGP-71 Units A and B in the form of a Permanent Pipeline Easement Deed, Unit C in the form of a Permanent Drainage Easement Deed, and Units D, E, and F in the form of Temporary Construction Easement Deeds covering a portion of that property particularly described in the above instrument has been executed and delivered to Brian Whitaker, Associate Land Agent for the State of California.

In consideration of which, and other considerations hereinafter set forth, it is mutually agreed as follows:

1. a. The parties have herein set forth the whole of their agreement. The performance of this agreement constitutes the entire consideration for said document and shall relieve STATE of all further obligation or claims on this account, or on account of the location, grade or construction of the proposed public improvement.
- b. STATE requires Parcel No. SGP-71 Units A, B, C, D, E and F for the construction of the East Branch Extension, Phase I Improvements Project, a public use for which STATE may exercise the power of eminent domain. Grantor is compelled to sell, and STATE is compelled to acquire said Parcel.

Both Grantor and STATE recognize the expense, time, effort, and risk to both Grantor and STATE in determining the compensation for said Parcel by eminent domain litigation; and the compensation set forth herein for said Parcel is in compromise and settlement in lieu of such litigation.

2. STATE shall:
 - a. Pay the sum of \$30,300 for the property described in said document to the following title company: First American Title Company for the account of Grantor, Escrow No. 0623-3125810 conditioned upon the property vesting in the STATE free and clear of all liens, leases, encumbrances, easements, (recorded and/or unrecorded), assessments, and taxes, except:
 - (1) Taxes for the tax year in which this escrow closes shall be cleared and paid in the manner required by Section 5086 of the Revenue and Taxation Code, if unpaid at the close of escrow.
 - (2) Covenants, conditions, restrictions and reservations of record, or contained in the above-referenced document.
 - (3) Easements or rights of way over said land for public or quasi-public utility or public purposes, if any.
 - b. Pay all expenses incidental to and necessarily incurred for the conveyance of the real property to the STATE, including but not limited to recording fees, title insurance charges, reconveyance fees, trustee's fees, forwarding fees and prepayment penalties.
3. Pursuant to Section 1263.025 of the Civil Code of Procedure, Grantor is entitled to obtain an independent appraisal and to be reimbursed for the actual reasonable cost of the appraisal up to \$5,000 if certain conditions are met. For further information on the requirements for reimbursement, contact Associate Land Agent Brian Whitaker at (916) 653-9607.

4. Title to said property shall pass immediately upon close of escrow. The issuance of any escrow instructions shall be the sole responsibility of STATE.
5. Grantor warrants that there are no oral or written leases on all or any portion of the property exceeding a period of one month, and Grantor further agrees to hold STATE harmless and reimburse STATE for any and all of its losses and expenses occasioned by reason of any lease of said property held by any tenant of Grantor for a period exceeding one month, except as may be otherwise provided herein.
6. The undersigned Grantor hereby agrees and consents to the dismissal of any eminent domain action in the Superior Court wherein the herein described land is included and also waives any and all claims to any money that may now be on deposit in said action.
7. To the best of Grantor's knowledge, Grantor represents and warrants the following:

During the Grantor's ownership of the property, there have been no disposals, releases, or threatened releases of hazardous substances on, from, or under the property.

There is no pending claim, lawsuit, agency proceeding, or any administrative challenge concerning the presence or use of hazardous substances on the property.

Grantor has not used the property for any industrial operations that use hazardous substances.

Grantor has not installed any underground storage tanks, aboveground storage tanks, barrels, sumps, impoundments or other containers used to contain hazardous substances on any part of the property.

For the purposes of this paragraph, the term "hazardous substances" shall mean any substance which at any time shall be listed as "hazardous" or "toxic" in the regulations implementing the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) (42 USC §§6901, et seq.), or other federal or State law, or any other substance, chemical, material or waste product whose presence, nature or quality is potentially injurious to the public health, safety, welfare, the environment or the property. The term "reasonable inquiry" shall mean a thorough examination of the property and all records of the property, and any examination that Grantor was legally obligated to conduct as a result of any judicial or administrative order, or federal or State law.

State has performed a Phase I – Site Assessment of the property. The Phase I – Site Assessment included a ground level visual inspection and research of available public records and did not indicate the presence of any Hazardous Materials. A Phase I – Site Assessment does not preclude the existence of Hazardous Material below the surface or Hazardous Materials that would be identified in a more thorough examination of the property.

The foregoing representations and warranties shall survive the close of escrow and shall remain in full force and effect for the duration of this easement and shall accrue for the benefit of STATE and its successors and assigns.

8. **PHASE I – ENVIRONMENTAL ASSESSMENT REPORT:** STATE's obligation to consummate the purchase of the property is subject to the completion and approval by the State (which completion will not be unreasonably delayed and approval will not be unreasonably withheld) of a Phase I – Environmental Assessment Report which concludes that the assessment has revealed no evidence of any recognized adverse environmental conditions, including but not limited to the presence of hazardous material in connection with the property. STATE may, at its own discretion, waive this condition in writing.
9. This contract may be modified, changed, or rescinded only by an instrument in writing executed by the parties hereto.
10. **RIGHT OF ENTRY:** It is understood and agreed that should GRANTOR and STATE execute a Right of Entry for construction purposes, said Right of Entry shall remain in full force and effect until transfer of title at close of escrow. Compensation as set forth in Clause 2.a. herein shall accrue simple annual interest from the date the Right of Entry is signed by State's Chief of the Real Estate Branch at the State Surplus Money Investment Fund rate (as computed by the State Controller) until a warrant is issued to the escrow account.
11. **IMMEDIATE POSSESSION:** It is agreed that STATE shall have immediate possession and use of the subject lands effective as of the date this contract is accepted by STATE.

12. It is understood and agreed that GRANTOR's rights to the easement area shall remain superior and have precedent. GRANTOR shall retain the right to make any use of the easement Parcels except those uses that are inconsistent with uses granted to STATE. GRANTOR shall not be required to obtain an Encroachment Permit from STATE at any time for activities within Easement areas that are consistent with uses granted to STATE. In accordance with State Water Code Section 12899 GRANTOR shall notify STATE and submit their plans to STATE for review and allow STATE 30 days to comment.

The foregoing representations and warranties shall survive the close of escrow and shall remain in full force and effect for the duration of this easement and shall accrue for the benefit of STATE and its successors and assigns.

This contract is subject to the approval of the State of California.

NO OBLIGATION OTHER THAN THOSE SET FORTH HEREIN SHALL BE RECOGNIZED.

IN WITNESS WHEREOF, the parties have executed this contract.

THE CITY OF REDLANDS, a municipal corporation, organized and existing under the laws of the State of California hereinafter called "GRANTOR", GRANTS to the State of California, its successors and assigns, hereinafter called "STATE", a NON-EXCLUSIVE EASEMENT for pipeline and drainage purposes over, on, under, across, and above the parcel(s) of land in the City of Redlands and in the unincorporated portions of Section 23, all in the County of San Bernardino, State of California, identified in the records of the Department of Water Resources as:

<u>DWR Parcel No.</u>	<u>Area</u>	<u>Estate</u>
SGP-71 UNIT A	0.85 acre	Permanent Non-Exclusive Pipeline Easement
SGP-71 UNIT B	0.09 acre	Permanent Non-Exclusive Pipeline Easement
SGP-71 UNIT C	0.08 acre	Permanent Non-Exclusive Drainage Easement
SGP-71 UNIT D	1.79 acres	Temporary Non-Exclusive Construction Easement
SGP-71 UNIT E	0.37 acre	Temporary Non-Exclusive Construction Easement
SGP-71 UNIT F	0.48 acre	Temporary Non-Exclusive Construction Easement

(In the event of any discrepancy between the above identification and the real property described herein, the real property described will control.)

A. STATE's rights in the easement parcel(s):

(1) STATE is granted a Permanent Non-Exclusive Pipeline and Drainage Easement over, under, across, and through the easement parcel(s) as described herein. Said grant includes the right to construct, lay, operate, patrol, maintain, repair, reconstruct, modify, alter, enlarge, add to, relay, remove, and replace a subsurface pipeline or pipelines for transportation of water, together with all fixtures, communications, data or control facilities, and any other devices or appurtenances, either above or below the ground surface, used or useful with respect to said pipeline that STATE may wish to construct or permit to be constructed.

(2) STATE is further granted the right to discharge water into any and all streams or natural channels traversed by said pipeline or pipelines, all the right of access over, ingress to and egress from and along the easement parcel(s) and on, over, and across drives and roadways which now exist or which may hereafter be constructed thereon and the use of which is reasonably necessary to accomplish STATE's purposes.

(3) It is expressly understood and agreed that GRANTOR(S), their successors or assigns, do not have the right to any use of the easement parcel(s) that is inconsistent with the uses granted to STATE herein. Inconsistent uses include, but are not limited to, the following:

- (a) Erection or construction of buildings or other structures;
- (b) Drilling or excavation, or operation of mines in or through the upper 300 feet of the subsurface;
- (c) Use of explosives;
- (d) Planting of trees;
- (e) Erection or construction of solid property or field barriers, such as rock, cinder block or concrete walls;
- (f) Erection or construction of cross fencing within said easement parcel(s) without including vehicular access gates therein, or the provision of reasonable alternative vehicular access to the STATE.

(4) It is expressly understood and agreed that GRANTOR(S), their successors or assigns, have the right to make any use of the easement parcel(s) except those uses that are inconsistent with uses granted to STATE herein. However, GRANTOR(S) shall notify STATE prior to any such use and pursuant to State Water Code Section 12899 shall submit their plans to STATE for review and allow STATE 30 days to comment on the intended use. Permitted uses of the easement parcel(s) requiring notification include, but are not limited to, the following:

(a) Construction of roadways (other than dirt or gravel roads), installation of above ground, surface or subsurface utilities, or making any other surface or subsurface alterations or improvements;

(b) Planting of vineyards;

(c) Erection or construction of fencing of any kind or nature not prohibited in Paragraph A(3) above;

(d) Alteration of the ground surface elevation by more than 12 inches.

(5) It is expressly understood and agreed that GRANTORS, their successors or assigns have the right to grant any easement or license, or permit any encroachment of any kind whatsoever in or over the easement parcel(s), provided that the use does not interfere with the STATE'S rights as described in Paragraphs A(1) and A(2) above, and as limited and qualified by Paragraphs A(3) and A(4). It is further expressly understood and agreed that use of the easement parcel by third persons is subject to issuance of an encroachment permit by STATE.

B. GRANTOR's rights with respect to use of the easement parcel(s):

GRANTORS, their successors or assigns, retain all aspects of fee ownership and the right to make all uses of the easement parcel(s), including, but not limited to, access, ingress, and egress over, through, and across said easement parcel(s) and to and from adjoining parcels, that do not unreasonably interfere with STATE's rights as described in Paragraphs A(1) and A(2) above, and as limited and qualified by Paragraphs A(3), A(4), and A(5) above.

STATE shall not unreasonably withhold an encroachment permit from third persons or unreasonably object to any use of the easement parcel by GRANTORS under Paragraph A(4) above, or approval under Paragraph A(5) above, so long as any proposed activity, construction, or improvement is designed in accordance with generally accepted engineering principles and practices for the protection of STATE's facilities and STATE's rights as granted herein.

C. Notices

Any and all notices referred to in this Agreement or which any party desires to give to another shall be addressed as follows:
