The present code prohibits any openings at property lines. Mr. Clapp has agreed to execute a covenant running with the land, insuring that if and when the property to the west is improved or a building erected on the line, the provisions of the code will be carried out. On motion of Councilman Hartzell, seconded by Councilman Cummings, a variance to the building code was approved subject to the execution of a covenant running with the land to be properly recorded.

PLANNING COMMISSION RECOMMENDATIONS (Continued)2. Commission Review and Approval No. 180 - Redlands Plaza Co.

This request for Commission Review and Approval is on this agenda at the recommendation of the Planning Commission. That the request for commission review and approval of site development plan and elevations of commercial buildings to be constructed in Citrus Village located on the southwest corner of Redlands Boulevard and Palm Avenue be approved. On motion of Councilman Wagner, seconded by Councilman Cummings, C.R.A. No. 180 was adopted by the City Council subject to the requirements of all departments as stated in Planning Commission minutes dated March 25, 1965, and with the additional requirement that no occupancy permit be granted until there has been satisfactory administrative approval of studies for the ingress and egress to Redlands Boulevard between Palm and Cypress Avenues.

3. Tract No. 7264 - R. C. Andrews - Time Extension

That a time extension of one year be granted for Tract No. 7264, to April 21, 1966. On motion of Councilman Hartzell, seconded by Councilman Cummings, the recommendation of the Planning Department was adopted by the City Council.

4. Commission Review and Approval No. 176 - Temple Baptist Church

This matter is before the Council at this time due to a letter from Pastor Wm. H. Bell, of the Temple Baptist Church. The letter protests the requirement to provide a water line along Cypress Avenue and the requirement to cover the storm drain running along the northeast line of the property. After very lengthy discussion, Councilman Hartzell made the following motion which was seconded by Councilman Cummings: That the City waive the cost of the installation of the 8 inch line from the east property line to Orchard Drive, and the cost of one fire hydrant., The vote:

AYES: Councilmen Hartzell and Cummings

NOES: Councilman Wagner and Mayor Burroughs

ABSENT: Councilman Martinez

The motion did not carry because of a split vote. Referring to his "No" vote, Mayor Burroughs stated that he believed the city finances and policy were not in a position to establish a precedent in this case. Mr. Wagner stated that although a cost of this type is usually borne by a developer, and this case is different, the policy cannot be helped by varying.

After lengthy discussion of the requirement to cover the storm drain, in which members of the church congregation participated, Councilman Wagner moved to deny the request and have the requirements stand as stated in Planning Commission minutes dated March 9, 1965. Councilman Hartzell seconded the motion. Councilman Cummings voted "No" for the reasons stated previously, and Mayor Burroughs voted "Yes". Motion carried.

5. Commission Review and Approval No. 178 - Dean W. Allman

This Commission Review and Approval of site plan for relocation of kennels at 312 Tennessee Street comes before the Council because of the request from the owner, Dean Allman, to be relieved from Engineering Requirements b. and c. as stated in Planning Commission minutes dated March 23 1965. Following discussions in both afternoon and evening sessions of the Council, during which Mrs. Allman and a representative of the San Bernardino County Flood Control District addressed the Council, the following motion was made by Councilman Cummings, seconded by Councilman Martinez: These requirements be waived for the reasons that (1) This is not an expanding use, (2) The new construction and change of location has been comelled by a public agency which has eminent domain - The San Bernardino County Flood Control District, (3) The applicant should be left as much as possible in his present condition of operation without detriment. Motion carried.

Authorization to be effective May 14, to allow time for any sincere company to work on the subdivision they are bonding.

Business
License
Apartment
Rentals

At a regular Council meeting on March 2, 1965, protests by some apartment owners were registered relative to the business license being applied to apartment owners this year. The matter was tabled until this meeting to allow the City Treasurer to compile a survey of the operation in other cities in Southern California. Mr. Poyzer submitted his report at this time - containing information obtained from over fifty cities and indicating that this arbitrary tax is in effect in approximately 68% of the cities. In the discussion the exemption line of four or less rentals as well as non-contiguous property was considered. In conclusion, Councilman Cummings moved that the Business License Ordinance be amended to cover licensing of four or more rental units (not owner occupied), and that said rental units need not be contiguous.
