UNFINISHED BUSINESS (Continued)

At a special meeting of the City Council on March 30, 1965, Mrs. Donald F. Billhardt, 110 Sunridge Way, submitted a petition on behalf of the Kimberly P.T.A. in connection with ice cream vendors parking next to school property at dismissal hours, causing congestion and confusion and creating traffic hazards. The petition stated that in addition to the traffic problem created, some vendors were offering children rides and encouraging credit purchases. The request was referred to the City Treasurer and the Police Department for a report and any recommended solution to be submitted at this meeting.

Speaking for the vendors at this time were Mr. and Mrs. G. H. King, vendors of Mr. Softee. For the P.T.A., Mrs. Billhardt and Mrs. Carl Ledbetter. Mrs. Martha Fox, and Bill Gibson spoke for the schools.

Vendors In
School
Areas

In the long discussion, the Council suggested the possibility of the vendors being allocated an area on the school grounds to keep them off the street. Mr. Gibson stated that it was highly improbable this would be permitted by the schools. Another suggestion was traffic legislation prohibiting parking by the vendors with 1/4 mile of school exits. A distance of 600 to 800 feet as also mentioned.

Mrs. King objected vigorously to the implied suggestion of questionable morals of some vendors. In summation, the Council agreed, that although reluctant to legislate against private enterprise, the vendors should be required to register, entailing a 3 weeks waiting period, a \$5.00 fee, photographs, finger prints, and F.B.I. check.

The City Treasurer so directed on motion of Councilman Wagner, seconded by Councilman Cummings. It was further recommended that the P.T.A., the schools and the Police Department meet together in an attempt to reach a workable solution to the traffic problem.

Fern Avenue
Closing

Also discussed at the March 30, 1965 meeting at the request of the Student Body Association was the closing of East Fern Avenue east of Church Street as it bisects the school property, with referral to this time for report and recommendation. At this time the following report was submitted by Director of Public Works Shone:

As requested in your memo of March 31, 1965, we have prepared a plan which would permit closure of Fern Avenue. It would require channelization of the intersection of Fern and Redlands Blvd., realignment of Church Street into Fern Avenue and widening of Church Street to Citrus Avenue. In addition, the intersection at Redlands Blvd. and Fern Avenue would be signalized to reduce traffic congestion during peak periods of traffic flow.

Because of the existing parking facilities on school property adjacent to Church Street, which would be seriously reduced by encroachment and the fact that parking is presently prohibited on both sides of Church Street between Citrus and Redlands Blvd. for the greater part of the day, we are proposing a narrower street section with parking prohibited on both sides. The section proposed for ultimate construction is as follows:

Right-of-way width:	66 feet
Curb to curb width:	52 feet
Sidewalk width:	6 feet adjacent to curb

This section, with parking prohibited on both sides of the street, would provide for four traffic lanes. North from Citrus on Church, we would propose retaining a full 88-foot street right-of-way with a 64-foot curbed section.

UNFINISHED BUSINESS (Continued)

This section, with parking prohibited on both sides of the street, would p

The section proposed would require the dedication of 3 feet of additional right-of-way on each side of Church Street between Citrus and Redlands Blvd. with a somewhat wider dedication required in the realigned section near Redlands Blvd. The ultimate widening of Church Street north of Citrus Avenue will require dedication of an additional 14 feet on each side of the street.

It would appear that realignment and widening of Church Street between Citrus and Redlands Blvd. would permit closure of Fern Avenue between Citrus and Redlands Blvd.; however, easements would have to be retained for existing utilities in Fern Avenue.

School
Mall

The estimated cost to the school district would be approximately \$9,679.50, to the City \$30,299.68. Some Gas Tax Funds would be available. The Council were in tentative agreement to this plan and authorized Mr. Shone to submit the report and cost sheets to the school board and report back to the Council.
