That street grade to a steepness not to exceed 17.8 be permitted on Arroyo Crest; 2, not to exceed 16 on portions of Pinehurst, and not to exceed 15 on other internal streets, for the reason that this does not set a precedent as it is being done to preserve trees and natural growth already present on the land; 3, there is no through traffic on these streets; and this condition which may curtail city services must be brought to the attention of owners and prospective buyers."
