CITY MANAGER

Resolution
No. 2718
Salary

Manager Merritt explained that following a comprehensive comparison of salary and fringe benefits of all city employees with statewide cities in population range between 20,000 and 58,000 and fourteen other cities in the area, it was apparent that the Redlands salaries are comparable for the area with the exception of Police and Fire Departments, and the Director of Building and Safety, Director of Finance, Planning Director, Street Superintendent and Engineer, Water Superintendent and Engineer, Electrical Superintendent, and Senior Electrical and Plumbing Advisor. Manager Merritt recommended a one-step across-the-board raise for the above mentioned personnel. Following discussion, Resolution No. 2718, a resolution of the City Council establishing the above changes, was unanimously adopted on motion of Councilman Cummings, seconded by Councilman Knudsen, to be effective November 16, 1968.

CITY MANAGER (Continued)

On motion of Councilman DeMirjyn, seconded by Councilman Martinez, authorization for the transfer of funds in the amount of \$29,478 to accomplish the above outlined salary increases for the balance of the fiscal year from the General Fund Budget Surplus to the affected budgets was also unanimously approved by the City Council.

Manager Merritt also recommended that the fringe benefits for city employees be increased in the following manner: A guarantee of nine holidays per year; and a change in vacation policy to fifteen working days vacation after ten years of continuous service and twenty working days vacation after twenty years of continuous service. This latter recommendation would change the personnel rules and regulations, and would require posting for five days prior to the Council meeting at which it will be considered. It is recommended that this change in fringe benefits be considered at the Council meeting of December 17, 1968, to become effective on January 1, 1969. On motion of Councilman DeMirjyn, seconded by Councilman Cummings, this proposal was unanimously approved.

Mr. Cummings leaves the Council Chambers at 7:55 P.M.

Following adoption of Resolution No. 2717, Councilman DeMirjyn expressed his concern with the present policy of the school administration and Board in the handling of accused peddlers of heroin, dangerous drugs and marijuana - the current policy considers each case individually. Councilman DeMirjyn feels that positive action with written rules should be established related to "pushers of drugs," and that they should be segregated from school students in general, with the recommendation that they be tutored to keep up their grades until such time as they are taken to trial and either vindicated or convicted. Mayor Burroughs stated that the City Council and the police have made every effort to emphasize the seriousness of the entire problem, and expressed hope that the schools would indeed take a firm stand. Chief Graefe stated that at the present time the cost of apprehending the narcotics peddlers is approximately \$15,000, or 2½¢ on the tax dollar.
