ORAL PETITIONS FROM THE FLOOR

Parking
Lot No. 3

Lois Lauer addressed Council regarding the agreement to purchase Parking Lot No. 3, Fifth Street and Redlands Boulevard, which was made by her clients, Craddock and Hart. She briefly reviewed the City's offer to sell this parking lot which was first presented in the minutes of July 19, 1977. Mrs. Lauer discussed the original work done by Mr. Les Platz, and explained her interest in the sale was due to her taking it over upon Mr. Platz's death. Mrs. Lauer staunchly defended the intent of her clients to comply with the requirements of the City in going into escrow on this property.

Mr. Mitchell responded briefly to Mrs. Lauer, stated that the agreed price on the property had been low, that the City's requirements at the time of the escrow had not been fulfilled, and that a great deal of interest had developed among the downtown property owners for the continuation of parking upon this property.

Council discussed the matter informally and noted that time for completion of the escrow had passed.

Councilman Miller observed that a petition had been received from the Business Improvement District regarding this property.

Community Development Director Schindler explained that this plan was not a totally precise plan but was being adopted at this time in order to accommodate developers of land in the area.

Mr. Bob Mills, owner of property in the immediate area, expressed some concerns regarding the border of the Santa Ana and the lands identified as Park. It was pointed out that this will not be a recreation-type park but will be left in natural growth. AddendaTract No. 9191 - Advisory Committee

The Advisory Committee reviewed the request for deletion of the requirement for curbs, gutters, and sidewalks in the development of the Tract No. 9191. It was the recommendation of the Advisory Committee that curbs, gutters and sidewalks be installed.

Barbara Cram Riorden of 1665 Dwight Street, addressed Council stating that there is sidewalk on only one of the other properties. She added that the present owners in this area were not the owners when the problem lot was developed, and expressed the view that the sidewalk would endanger the Deodar trees and would end at a ravine. She requested that Council waive the requirement for sidewalks. On motion of Councilman Knudsen, seconded by Councilwoman MacFarland, the deletion of requirement for sidewalks was unanimously approved by Council to preserve the trees. It was noted that the curbing would be installed on the old alignment.

Mr. Mitchell reported briefly on Mr. Caruthers' request concerning drainage on the tract under discussion. The problem is that the grading is not presently completed and so the water does flow on adjacent property, but Mr. Mitchell assures Council that when the grading is completed the problem will be solved.
