Mr. Jack Riley, representing Dr. Groves, expressed understanding of Mrs. Riordan's concern and stated he believed that Parcel 3 could be increased in size, although possibly not to one-half acre. Mr. Riley added that he felt sure Dr. Groves would approve such a lot line adjustment.

This request to prepare an ordinance was unanimously adopted by the City Council.
11. C.R.A. for Conditional Use Permit No. 283 - Robert and Ingrid Mack
Commission review and approval does not usually require Council consideration; however, this property has a tennis court surrounded by a twelve-foot chain link fence. The tennis court is located three feet from a six-foot slump-stone fence.

Planning Commissioner Swen Larson addressed the Council with the recommendation that certain minimums should be established for tennis court fences because of the possible aesthetic loss to adjacent properties. Mr. Larson recommended a ten to fifteen foot setback from the property boundaries. This matter was discussed at length. Mrs. Riordan pointed out that at the Commission meetings there had been no neighborhood opposition to this particular development.

Council took no action, however, moved to instruct the Planning Department to prepare an amendment to the zoning ordinance to control such fences by the addition of setback requirements. On motion of Councilman Riordan, seconded by Councilman Knudsen, this was unanimously approved.

No. 481. On motion of Councilman DeMirjyn, seconded by Councilman Elliott, R.P.C. No. 481 - Commission Determination No. 32 - was unanimously approved by the City Council.

1.

Appeal to Decision of Planning Commission of September 12, 1978 - Tentative Tract No. 10113 - Robert E. Mills

Mr. Robert Mills addressed Council concerning requirements outlined in the tentative approval of Tract No. 10113. Mr. Mills did not speak to the first item on his printed appeal; he spoke concerning the requirement that the acreage between Scenic Drive and the bluff of the Santa Ana River be dedicated to the City for a future park. Mr. Mills pointed out that all developers were required by City ordinance to pay into the Park Acquisition Fund and expressed the opinion that the City should purchase from him the land to be dedicated as future park.

Council discussed the land in question, noting that it is property along the bluff of the Santa Ana River; it is on the General Plan Map as park land; and San Bernardino County Flood Control has specified that this property will not be built upon due to potential flood hazard.

Director of Planning Schindler pointed out that the property will not be buildable and would seem to be a liability to the owner as it would require maintenance and taxes would be paid upon the property. He estimated that between Orange and Judson Streets there exists between 30 and 35 acres of similar land. Mr. Schindler added that the Flood Control stated that it would be between 20 and 30 years before adequate flood control was provided for this land.

Councilman Riordan recommended the donation of the property to the City in return for a tax credit to the developer. Councilman Elliott pointed out that it would be foolish for the City to undertake maintenance of this entire area. Councilman Knudsen, seconded by Councilman DeMirjyn, moved that the requirement of dedication of property to the City for park land be removed from the requirements for the development of Mr. Mill's tract; he be granted the option of retaining the title of the two and one-half or three acre Parcel A, and not be required to dedicate it to the City at this time. The motion carried by the following roll call vote:

AYES:	Councilmembers Knudsen, DeMirjyn, Elliott; Mayor Martinez
NOES:	None
ABSTAIN:	Councilmember Riordan, because she was not satisfied with this solution
ABSENT:	None
