ABSENT

None

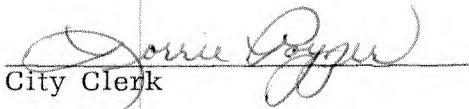

City Engineer Mutter presented a copy of the revised analysis for the percentages to be attributed to existing and future development for the cost analysis of public facility impact fees for City Hall and corporation yard facilities. The revisions used population figures as the basis for the analysis. Councilmember Wormser indicated she was more comfortable with the use of the employee ratio rather than population. Councilmember Cunningham agreed with the original report reflecting the 25/75 percent ratio. Councilmember Johnson explained he felt that between 1982 and adoption of these fees the difference in the population also needed to be charged for these facilities. Mr. Mutter was asked to re-figure these calculations for the February 21, 1989, meeting.

There being no further business on this agenda, the meeting adjourned at 3:14 P.M.

Next regular meeting, January 17, 1989, at 3:00 P.M.

ATTEST:

Mayor of the City of Redlands

City Clerk
