Surface Mining and Reclamation Act - City Attorney McHugh explained that recently the City of Highland made a formal request to the State Mining and Geology Board to become lead agent to review all reclamation plans filed in the Wash area for existing and proposed mining operations, do site inspections, and enforce conditions of approval associated with those reclamation plans. Their request was continued and will be considered in November or December. Following discussion, Councilmember Foster moved to instruct the City Attorney and staff to represent our positions as follows: enter into a joint powers agreement covering the two mining operations which straddle the cities' common boundary and that each city shall be lead agency over their own properties. Barking Dog Nuisances - City Attorney Marum reported the City has recently experienced some difficulty in resolving noisy animal disputes.
